ENERGY CONTROLS
Metering, Measuring and Managing Resources

Energy Controls is an award-winning supplier of electricity SMART meters and prepayment metering systems.

With over 25 years' experience behind us we know everything there is to know about providing the best metering solution tailored specifically for our customers' needs.

Our SMART meters are ideal for all types of sub-metering applications ranging from Landlord properties to Holiday Parks and Housing Associations.

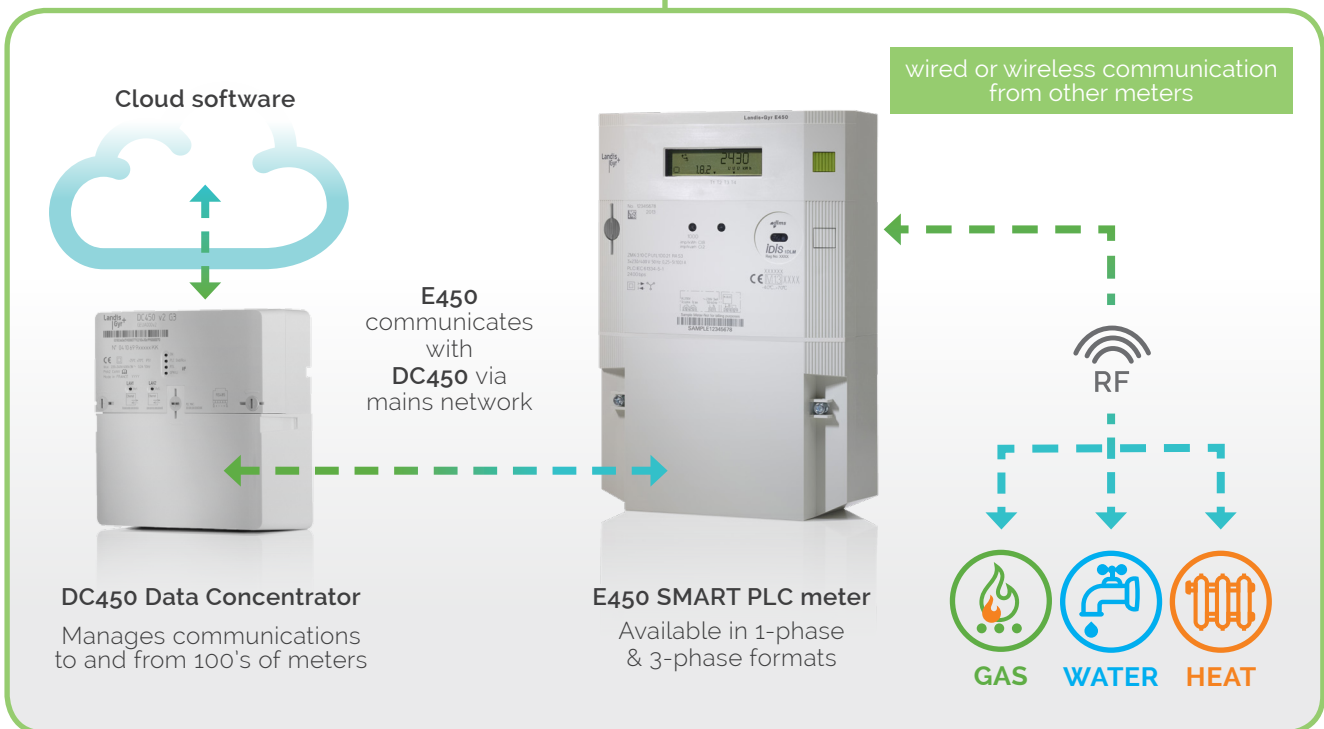

Accurate & Reliable

All Energy Controls' products are manufactured by Landis + Gyr, the World's largest meter manufacturer. Our customers know that they can trust in us to provide them with the most accurate and advanced meters with the highest standards of service.

E450 SMART PLC meter

Key features

- 'Fit for FREE' solution with zero start-up costs!

- Automatic meter readings
- Online access to meter reading profiles
- Remote disconnect/reconnect of power supply
- Real-time energy monitoring
- Multi-Utility solution for Gas, Water & Heat Meters
- Anti-tamper alerts

“ Having dealt with Energy Controls for the past 25 years I can highly recommend them. They offer a reliable and valuable service, especially when overspending on energy can become an issue, particularly with unoccupied accommodation. Energy Controls' products are extremely effective and their metering systems allow us to remotely monitor the energy usage in each lodge so that we can accurately manage our energy overheads. ”

Associate Director, Darwin Forest Country Park
